CYP	0				0,00
ARM	0				0,00
BUL	0				0,00

Note

Before 2010 the highest placed Country received 18, 2nd highest 17 etc.

From 2010, the highest got 20 points, next 19 points etc. The rankings were also changed to be based on the four year total rather than average.

After the top 8, the teams in the various pools who did not qualify for the final round shared the points for the next two places. For example the top non-qualified team in each of two pools would share the points for 9th and 10th places.
